

# Pennsylvania Update

MSEIA – 1st Qrtly Mtg - 2014

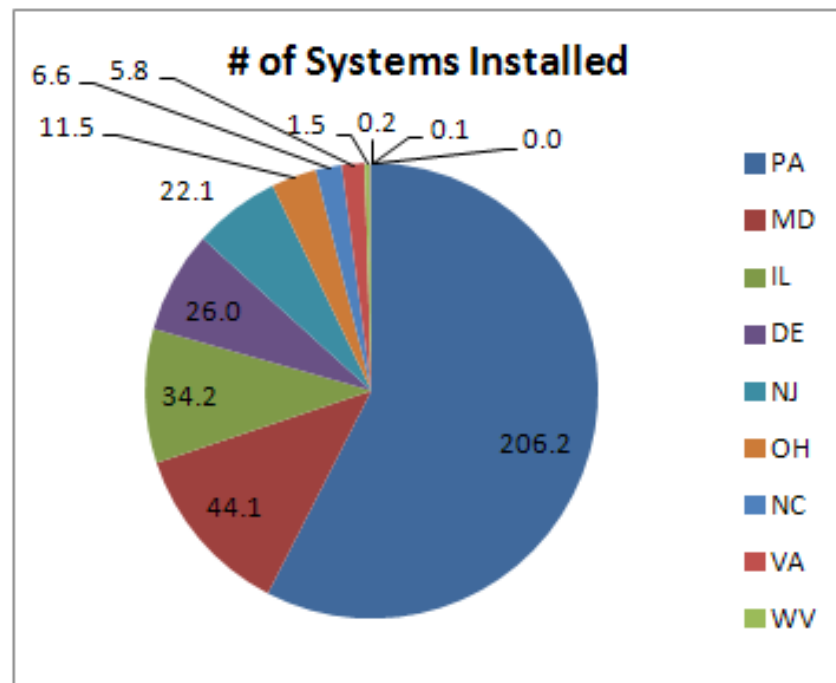

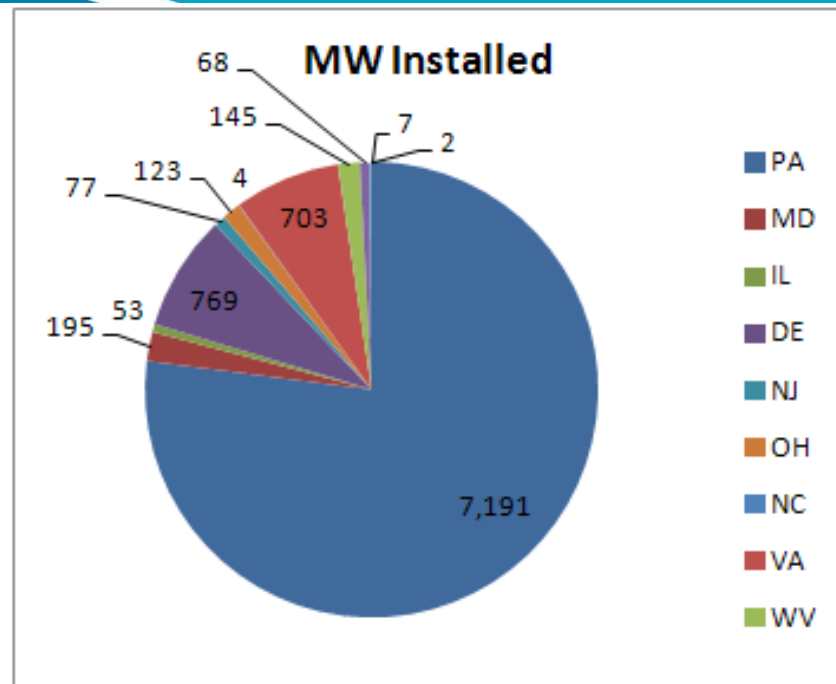

# PA AEPS SREC Supply vs Demand

PASEIA - 2/26/2014

1,150 SRECs/yr per MW Equivalent

State	#Systems	MW
PA	7,191	206.2
MD	195	44.1
IL	53	34.2
DE	769	26.0
NJ	77	22.1
OH	123	11.5
NC	4	6.6
VA	703	5.8
WV	145	1.5
DC	68	0.2
IN	7	0.1
MI	2	0.0
Subtotal	2,146	152.2
Grand Total	9,337	358.4

# Status in PA

- HB100/SB1171 (Vitali/Leach) on the table:
  - Tier 1 - 8% → 20%;
  - Solar - 0.5% → 1.5%
  - Closing PA Borders

Strongly promoted by Sierra Club and others. PASEIA will sign supporting letter, but will not invest much time/resources (not likely to pass)

- PA PUC Proposed Rulemaking Order Came Out Last Week:

With regard to clarifying rules on Net Metering, Interconnection and AEPS

PASEIA closely working with PennFuture, SEIA, Sierra Club, Clean Air Council, Sustainable Development Fund, SEF – PPL, MAREA, and others – conference calls, comments, etc. Planning a webinar on issues for solar installers and other stakeholders (comments due sometime in April)

# Proposed Rulemaking Order Issues

- EDC/Default Service Providers (DSP) and implications
- Utility/Non-Utility definition
- Virtual Net Metering language (same customer generators, non-generation load)
- Changing Net Metering year from Jun 1 – May 31, to May 1 – Apr 30 (should be calendar year)
- PUC *authority* to establish a fee
- 110% language changes. Extension to residential customers, impact to 3<sup>rd</sup> party generators
- New application for >500 kW installs; EDC required to send application to PUC for approval – up to 50 day timeline (too long); must not interrupt IC review timeline
- Dispute option under interconnection: PUC proposes to remove “technical master”; PASEIA disagrees
- Require revenue grade meters for PV systems under 15 kW – PASEIA agrees
- PUC proposing to use a heavy hand with regard to suspending systems’ SREC generation, due to fraud, etc.

# Lastest News

Representative Godshall said his next hearing is going to be on net metering because net metering customers are getting a free ride and other states are looking at this too. Trouble ahead.....
